

3500 Series Rotors Featuring Rain Curtain™ Nozzle Technology

RAIN BIRD®

Relax with the knowledge your landscape is being watered by reliable 3500 Series Rotors and industry-leading Rain Curtain Nozzle Technology.

Application:

Rain Bird® 3500 Series Rotors are ideal for medium-size lawns and evenly distribute water from 15 to 35 feet.

Outstanding Results:

SUPERIOR DISTRIBUTION UNIFORMITY

The 3500 Series Rotors with Rain Curtain Technology are engineered to deliver a uniform spray pattern, giving you a consistently green lawn throughout.

SUPERIOR WIND RESISTANCE

The larger water droplets produced by Rain Curtain technology prevent misting and airborne evaporation so the right amount of water is delivered to the right place saving you water and money.

SUPERIOR CLOSE-IN WATERING

Gentle close-in watering eliminates dry spots around the rotor, prevents seed washout and allows the turf to grow healthy with no matting or bending.

Options:

- 4" pop-up height for grass or shrubs.
- Seal-A-Matic (SAM) check valve which prevents water from pooling at the base of slopes or hillsides.
